

Huning Ranch Park and Tennis Courts

Client

Los Lunas

Completion

2019

Size

12 Acres

Cost

\$841,600

Molzen Corbin master planned the Huning Ranch Park for the Village of Los Lunas. As one of the final phases of this project, the Village unveiled six new competition-caliber tennis courts. These courts offer a visually striking appeal against the backdrop of the desert southwest landscaping. The 12-acre park boasts basketball courts, picnic tables, a dog park, and a playground, as well as a walking trail, unifying landscape gardens, and a storm drainage pond. The entire project was completed in multiple phases.

Scope of Work

Architecture, Landscaping, Electrical Engineering, Master Planning, Site Development
