

Los Lunas Village Hall Landscaping

Client

Los Lunas

Completion

2013

Size

N/A

Cost

\$217,977

The Village of Los Lunas municipal complex includes the Village's administrative offices, the police department, municipal courts, the Fred Luna Senior Center, and a public health clinic. The Village asked Molzen Corbin to design landscape and hardscape that would unify the campus, improve parking and access to the facilities, and project a professional image to the public. Our architects created a new circulation plan that separated parking for police and Village employees from public parking areas, improving traffic flow around the campus. We also created pathways between the buildings surrounded by durable, easily maintained, and attractive landscaping that is welcoming to visitors and a source of pride for residents.

Scope of Work

Architecture, Landscaping
