

# NMSU Presidential Skybox (Club 27)

## Client

New Mexico State University

## Completion

2015

## Size

2,000 Square Feet

## Cost

\$827,605

As part of our on-call contract, NMSU tasked Molzen Corbin to design a "Presidential Skybox" for Aggie Memorial Stadium. The university received a donation in the Spring of 2015 to construct the Skybox with the goal of having construction completed for the 2015 NMSU Homecoming on October 24, 2015. The Skybox is a modern amenity that is increasingly sought after at Division I athletic programs to host guests, donors, and fundraising activities. This addition not only modernizes Aggie Memorial Stadium, but allows NMSU to compete with comparable Division I football programs.

## Scope of Work

Architecture, Electrical Engineering, Construction, Observation/Administration
