

# Tijeras Village Hall

**Client**

Tijeras

**Completion**

2007

**Size**

6,000 Square Feet

**Cost**

\$786,600

Molzen Corbin designed the Village's original municipal building in 1984. This facility included a small Village Hall, an area for the Motor Vehicle Department and the Village's only Fire Station. In 2007, Molzen Corbin designed renovations providing much-needed work space for Village staff, as well as expanded MVD facilities for the general public. Workrooms, conference rooms and secure file storage enhance comfort and productivity for Village personnel and MVD is now housed in a separate office.

**Scope of Work**

Architecture, Landscaping, Electrical Engineering, Site Development
